

## Developer, Project Management and Sales Jobs in Coventry

Posted At : 10 June 2008 22:48 | Posted By : Gareth

Related Categories: coldfusion

A digital solutions company I've recently been doing work for in Coventry are on a requirement drive just now.

They work with several technologies, including .NET, ColdFusion, Ruby on Rails, Flash/Flex, PHP, Sharepoint and others. It's not essential to have experience of all of these, just a few years experience in some of them, and a willingness to learn.

They also have Project Management and Sales positions available just now.

If you're interested, please drop me an email at [info@melrosesolutions.com](mailto:info@melrosesolutions.com) and I'll pass on your details.
